

Update — Gallup 3/7/2021

Greetings,

We are happy to share that we have had no new COVID-19 illnesses among Residents or staff since the beginning of January! Also, more than 80% of residents and 72% of staff have received the COVID vaccine. This, as well as all the directives from the Department of Health, have helped to keep the virus out of the Home. We are grateful for everyone's efforts.

This last Wednesday, we received new guidance concerning visitation, communal dining, and activities. We are in the process of putting together our policies and will be implementing these items over the next couple of weeks. We hope to begin with the possibility of indoor visitation, particularly when the weather is bad and to begin small group activities on the unit. This will help our Residents to feel a little more "normal" again.

For those who have given various disposable products and crackers, thank you. They are all being put to good use. Once we return to the dining room, we hope to use regular dishes again — what a treat that will be for everyone — especially in time for Easter!

Please be assured of our continued prayers for you and we count on yours as well.

God bless you,  
Sr. Sarah and all the Little Sisters
